

GREENMECH EDGE

A New Attitude to Service

Clients who choose to invest in the Greenmech Disc Blade Chipping System, can now also choose from a range of on road service or blade sharpening options as part of the most comprehensive service and product support programme the industry has ever seen.

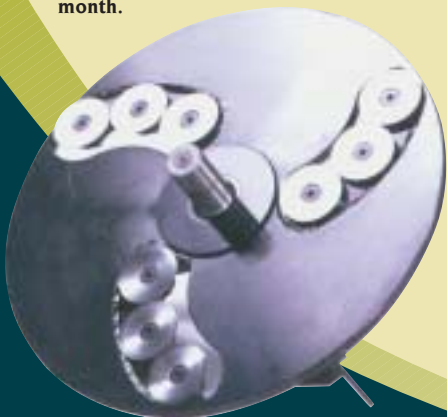

'EVERCHIP' On Road Service

- On road 75 hour service schedule
- Includes all filters and oils
- Extends product warranty
- Guaranteed chipper replacement
- Emergency callout

The 'EVERCHIP' service programme features on road service technicians who travel to the chippers location every 75 hours to service the machine, check it over, and fix any problems that may be apparent.

The 'EVERCHIP Programme' is available on all Greenmech Chippers and includes all filters and consumables such as engine and hydraulic fluids, extends the new manufacturers warranty by a further 6 months and guarantees clients a replacement chipper in the unlikely event or a breakdown that cannot be promptly attended to or fixed.

The EVERCHIP Programme is available as a 3, 4 or 5 year contract from \$140.00 per month.

'EVERSHARP' Blade Sharpening and Replacement Guarantee

- Blade sharpening as required
- Replacement discs as required
- One off charge no matter what

Imagine having the cost of blade sharpening and blade replacement fixed for a maximum of 5 years or 2000 hours?

By utilizing the EVERSHARP guarantee, you will always have sharp blades, no matter how often they need to be sharpened or replaced, and all for the guaranteed fixed price you see below.

6 inch
Arborist
\$20.00
Per month

9 inch
Chipmaster
\$60.00
Per month

10 inch
Chipmaster
\$80.00
Per month

COMPARE this with your current blade sharpening and replacement costs, along with the time you spend making anvil adjustments (not required with Greenmech chippers) and calculate the savings.

NB: Greenmech Edge service programmes are initially available in Victoria, South Australia and Southern NSW.

On road servicing is available for clients of other major brands of chippers, but not as part of the fixed price Everchip or Eversharp programmes.

Combination of Programmes

Naturally the EVERCHIP and EVERSHARP Programmes can be combined for the ultimate service and blade sharpening guarantee and means you virtually never have to pick up a tool or sharpen a blade again.

To find out more about the ultimate service programme, call ASPAC Golf and Turf.
